PROFESSIONAL SUMMARY

Motivated student with strong skills in Data Structures and Algorithms and Full-Stack web development. Passionate about software development and focused on solving real-world problems with efficient, scalable solutions.

EDUCATION

Vasavi College of Engineering, Hyderabad **2023 – 2027**
Bachelor of Engineering in Information Technology - CGPA: 8.85 *Telangana, India*
(Honours in Artificial Intelligence and Machine Learning)

Sri Chaitanya Junior College, Hyderabad **2020 – 2022**
MPC - Percentage: 95.1% and JEE-Mains: 94 percentile *Telangana, India*

Sri Chaitanya High School, Warangal **2020**
SSC - GPA: 10.00/10.00 *Telangana, India*

WORK EXPERIENCE

Olcademy Company **Feb 2025 - Sep 2025**
- Full Stack Developer Intern - Certificate *Delhi, India*

- Developed scalable components for Project-z using the MERN stack while following industry best practices.
- Collaborated with a team on Project-Z, a food delivery website, using modern tools to deliver robust solutions.

Amazon ML Summer School **Aug 2025 - Sep 2025**
- Machine Learning Trainee - Certificate *Hyderabad*

- Selected as an Amazon ML Summer School Scholar, gaining hands-on exposure to ML concepts.
- Studied supervised and unsupervised learning, deep neural networks, and dimensionality reduction concepts.

PROJECTS

Local-Connect E-commerce Website | MERN Stack, REST APIs — Deploy Link **2025**

- Integrated a unified web platform allowing users to book repair services and securely buy or sell event tickets.
- Combined user-friendly interfaces with efficient backend logic to ensure smooth and seamless functionality.

DeepFitAI Mobile App | ML, Mediapipe (Pose Detection), TensorFlow, Python -Link **2025**

- Built an AI/ML system for Live camera video detection exercises like height, sit-ups, dumbbell-curl.
- Implemented graph-based exercise analysis with scoring to assess movement accuracy and performance.

Medical Disease Prediction | Python, Healthcare Disease Datasets, API — Link **2025**

- Designed and implemented an AI-driven disease detection system using Python and machine learning.
- Utilized healthcare symptom datasets to produce accurate medical predictions and enhance diagnostic support.

SKILLS

- **Technologies and Frameworks** : React.js, Node.js, MERN Stack, Git, MongoDB, Flask, HTML, CSS.
- **Programming Languages** : Java (object-oriented design), JavaScript, C/C++, Python, SQL (Database).
- **Soft Skills** : Problem Solving, Team Collaboration, Communication, Adaptability, Time Management.

ROLES AND EXTRA CURRICULAR ACTIVITIES

- **Edunet Foundation by Microsoft Internship (Artificial Intelligence)**. Certificate
- **Awarded 2nd Prize at Sudhee Project Expo, Chaitanya Bharathi Institute of Technology.**
- **Smart India Hackathon (SIH) Semi-Finalist, 2025.** • **DSAC-IT Club Member (Web Development) - VCE.**

CERTIFICATIONS

- **NPTEL Exam – Gold Elite Medal in Programming in Java.** Certificate
- **Walmart Global Tech – Advanced Software Engineering Certification.**
- **Cisco Networking Academy- Introduction to Networks Certification.**
