PROFESSIONAL SUMMARY

Motivated Software Engineering student with strong skills in Full-Stack Web Development, Data Structures and Algorithms, Object-Oriented Programming, and problem solving. Passionate about software development, System Design, and building efficient, scalable, and reliable solutions to real-world problems with innovation and impact. Hands-on experience across the **Software Development Life Cycle (SDLC)**, **Artificial Intelligence and Machine Learning** (Deep Learning, NLP, Computer Vision, Generative AI, LLMs, RAG, Agentic AI), **Cloud and DevOps** practices (AWS, Docker, CI/CD, Git version control), and **REST API** design. Adept at working in Agile/Scrum teams to deliver scalable, production-ready, data-driven applications.

EDUCATION

Vasavi College of Engineering, Hyderabad

2023 – 2027

- Bachelor of Engineering in Information Technology - **CGPA: 8.85**
(Honours in Artificial Intelligence and Machine Learning)

Telangana, India

Sri Chaitanya Junior College, Hyderabad

2020 – 2022

- MPC - **Percentage: 95.1%** and **JEE-Mains: 94 percentile**

Telangana, India

Sri Chaitanya High School, Warangal

2020

- SSC - **GPA: 10.00/10.00**

Telangana, India

WORK EXPERIENCE

Olcademy Company

Feb 2025 - Sep 2025

- Full Stack Developer Intern - Certificate 

Delhi, India

- Developed scalable components for Project-Z using the MERN stack while following industry best practices and Agile software development methodology.
- Collaborated with a team on Project-Z, a food delivery website, using modern tools, Git version control, and REST APIs to deliver robust, production-ready solutions.

Amazon ML Summer School

Aug 2025 - Sep 2025

- Machine Learning Trainee - Certificate 

Hyderabad

- Selected as an Amazon ML Summer School Scholar, gaining hands-on exposure to Machine Learning and Data Science concepts.
- Studied supervised and unsupervised learning, deep neural networks, and dimensionality reduction concepts using Python-based ML libraries.

PROJECTS

Local-Connect E-commerce Website | MERN Stack, REST APIs - Deploy Link

2025

- Integrated a unified web platform allowing users to book repair services and securely buy or sell event tickets, following System Design and scalable architecture principles.
- Combined user-friendly interfaces with efficient backend logic and REST API integration to ensure smooth and seamless functionality.
- Integrated the Stripe payment gateway for secure transactions and automated event ticket delivery via SMTP upon successful payment confirmation.

DeepFit: Sports Talent Assessment | ML, Mediapipe, TensorFlow, Python - Link

2025

- Built an AI/ML system for Live camera video detection exercises like sit-ups, dumbbell-curl.
- Implemented graph-based exercise analysis with scoring to assess movement accuracy and performance.
- Developed an AI chatbot assistant using an MCP (Model Context Protocol) client-server architecture for interactive user support.
- Performed real-time body point detection and pose landmark tracking through Mediapipe for accurate exercise form analysis.

- Designed and implemented an AI-driven disease detection system using Python and machine learning, exposed through a REST API for backend integration.
- Utilized healthcare symptom datasets to produce accurate medical predictions and enhance diagnostic support.
- Enabled prediction and risk assessment for multiple diseases including heart attack, thyroid disorders, and cholesterol-related conditions.

SKILLS

- **Programming Languages** : Java (Object-Oriented Design), Python, JavaScript, C/C++, SQL.
- **Software Engineering** : Data Structures and Algorithms (DSA), Object-Oriented Programming (OOPs), System Design, Software Development Life Cycle (SDLC), Agile/Scrum, Debugging, Unit Testing.
- **Web Development / SDE** : React.js, Node.js, Express.js, MERN Stack, HTML, CSS, REST APIs, JSON, Responsive Web Design.
- **AI/ML** : Machine Learning, Deep Learning, Artificial Intelligence, Natural Language Processing (NLP), Computer Vision, Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Agentic AI, Multi-Agent Systems, Prompt Engineering, TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, OpenCV, Mediapipe.
- **Cloud & DevOps** : AWS (Amazon Web Services), Docker, CI/CD, Linux, Git, GitHub, Version Control, Cloud Computing Fundamentals.
- **Databases** : MongoDB, SQL, Database Design and Management.
- **Soft Skills** : Problem Solving, Team Collaboration, Communication, Adaptability, Time Management, Analytical Thinking, Leadership.

ROLES AND ACHIEVEMENTS

- **Qualified GATE 2026** (Computer Science and Information Technology)
- **Selected for the AI Program by Edunet Foundation (Microsoft)** Certificate 
- **Awarded 2nd Prize at Project Expo, CBIT** 
- **AISEHack 2026 - IIIT Hyderabad Finalist** 
- **Smart India Hackathon (SIH)** Pre-Finalist, 2025
- **DSAC-IT Club Member** (Web Development) - VCE
- **HackerRank National Coding Hackathon** - 3rd Place Winner

CERTIFICATIONS

- **NPTEL Exam – Gold Elite Medal in Programming in Java.** Certificate 
- **Walmart Global Tech** – Advanced Software Engineering Certification. 
- **Cisco Networking Academy** - Introduction to Networks Certification. 
- **AWS Academy** - Machine Learning Certification. 
- **IIT GandhiNagar** - National AI Hackathon. 
- **AWS Academy Graduate** - Cloud Foundations Certification.
